Summer Internship 2019

1 message

Dear Sir or Madam,

I am happy to inform you that the Indian Institute of Technology (BHU) Varanasi is launching an Eight-Week Summer Internship Programme from 2019 for the undergraduate students at other institutions. The programme has been designed to ensure a thoroughly transformative, and an intensely intellectual and personal experience to the prospective interns with a view to building in them the skills for a life of accomplishment and sustainability.

Indian Institute of Technology (BHU) Varanasi has played a vital role in shaping the future by nurturing a lineage of scientific pioneers and engineering leaders. By holding aloft its credo and fostering the culture of innovation, the institute has left an enduring mark on the lives of its stakeholders. The institute is anchored by a team of highly adept academics and support staff in key areas of research innovation and strategy, who play a critical role in developing a deep understanding of and an expertise in scientific and engineering practices.

The Summer Internship Programme at Indian Institute of Technology (BHU), Varanasi will prepare the students to delve into academic life and discover the incredible range of prospects that lie therein. Through a graded exposure and a hands-on research-oriented experience, the programme will up-skill the interns in the dynamic interplay between science, technology, and transformational lives. Other details of the programme are available on the Institute Website i.e. www.iitbhu.ac.in

I request you to kindly let the students of your esteemed institution know of the programme. We shall be delighted to welcome them for the Summer Internship Programme 2019.
